

Trello-react-tailwind-project

Trello is a single-page application created with React.

Dependencies used in this project:

- 1- React with Vite
- 2- Tailwind CSS.
- 3- React Icons Library (Feather icons and Bootstrap icons).
- 4- Pure CSS for Responsive Design.
- 5- Framer motion (Animation Library).
- 6- All images from the Design sketch and other images from <https://Unsplash.com>
